REGISTRATION

Online Student Registration

Every year, we ask all families to complete an online registration to ensure that we have the most accurate and up-to-date information for you and your student(s). This process is essential for several important reasons:

1. **Student Records** - Accurate information helps us maintain current records, ensuring student safety and effective communication.
2. **Policy Acknowledgment** - During registration, you'll review and agree to the latest school policies. This helps ensure both you and your student are informed about current guidelines and expectations.
3. **Class Placement** - Early registration helps us plan class assignments, allocate resources, and build balanced schedules.

How to Register: The process is entirely online and completed through our student information system, Infinite Campus. You can access the registration portal here: <https://registration.lcsd2.org/>

Your cooperation ensures a smooth and successful start to the new school year.
Thank you for being a valued part of our school community!
